

The family Immoos from Morschach, Schwyz and Ingenbohl on the track!

Life, the deeds and experiences as well as the characters of our ancestors characterize the family root in very different ways. The Genealogy brings more or less to light what we have inherited from our ancestors, what connects us with them and what we except, perhaps pass on to future generations of this heritage, the genes.

Following in the footsteps of our ancestors you can always find something mysterious, inexplicable, because every family has secrets, mystery, myths, fates and sometimes black sheep in the family.

The Immoos mystery is the enigmatic original origin and ancestry. Why the Moos in Morschach appear until around 1500? From where the Moos (Zmoß) immigrated in the late 15th century in Morschach. So where originate our ancestors? Are they Walser and therefore once moved away from the Valais? If the Moos even noble? What have they to do with the Moos of Ursern and Uri? Are the Müsler with Moos somehow connected family? Do the Moos does blood of the Saracens in their veins?

Each family unit but are also repeatedly fates, diseases, disasters, murder and manslaughter, as well as other incidents to light, which were very influential in the family history for individuals or even future generations. The journey into the past sometimes leads every now and then to celebrities, aristocrats, folk hero, rice runners, emigrants as well as to criminals and other special contemporaries.

Questions, events, current affairs; on the Immoos research with Immoos Chronicle and Immoos site founded and source related information tries to enter, show facts, evidence and answers. Follow the chapters of Immoos Chronicle or the sides of the Immoos site and look at the interesting family history itself for explanations and answers.
